WHAT'S NEW

**WORLD CHAMP AND OLYMPIC GOLD MEDAL ITALO FERREIRA
JOINS OUR FAMILY!**

WHAT'S NEW

HIGH STRENGTH SPRINGS

No more wire hooks that crack. The new High Strength Swivel Springs have independent hooks that are locked into the coil during manufacturing. The hooks are made from laser cut magnesium steel.- construction and material designed to last.

STEP BUSHINGS

New oversized step bushings increase the stability of the rear truck, while also allowing for a more dynamic range of resistance.

PRO MODELS

PREMIERE SERIES

HYBRID SERIES

The Italo Pro Air is our most compact deck with a wheelbase of 20.5 inches. This smaller wheelbase makes it easy to do very tight and snappy carves. The deck also features a kick pad and rockered nose - both of which make foot control easier during aerial maneuvers. We recommend this board to riders 149-170cm tall.

ITALO PRO AIR

SPECS

SurfSkate SwellTech System

Weight: 3.8 Kg

Wheelbase: 52 Cm

Traction Pad

Deck Length: 93.98 Cm

Tail Width: 7.5"

Abec 7s

70mm 78a Wheel

The Italo Pro Tube is a mid to long wheelbase at 23 inches. The snub nose deck coupled with the longer wheelbase is a good fit for riders on the taller side that still want a more compact feel. The design of this deck is modeled after the surfboard Italo rode when he won gold at the 2020 Summer Olympics.

We recommend this board to riders 152-190cm tall.

70mm 78a Wheels

Designed by Jamie himself, the Jamie O'Brien Pro model is built for those looking to progress to advanced levels. Jamie's deck is designed to be small and compact, giving a "loose" feel. Jamie's board is good for

360 slides and quick snappy maneuvers.

We recommend this board to riders 149-170cmtall.

The 2020 Jamie O'Brien "Banzai" Pro Model has a slightly longer wheelbase and deck length than the original. The deck features black stained wood and track pad to give it a fresh clean look on top, with a photo of Jamie pulling into a massive Banzai Pipeline barrel on the bottom.

We recommend this board to riders 152-190cm tall.

HYBRID CAMO

HYBRID SAN'Ō

DESCRIPTION

The Hybrid model is our mid-length deck. The Hybrid has the same deck width as our longer Premeire. but with a snub nose and wider tail. The Hybrid deck has an aggressive concave that adds stiffness and durability - great for skating pools. or high speed carving.

We recommend this deck to riders who are 158-182cm tall.

Our original deck, the Premiere, now has a longer wheelbase at 23.5 inches. The longer wheelbase now allows a rider to spread their feet to match their actual stance on their surfboard. Having the ability to cross-train in your real surf stance maximises the fluidity between surfing and skating and will allow you to get your practiced land maneuvers onto waves with greater ease.

We recommend the Premiere to riders 173-195 cm tall.

Front Truck

Our boards are built only for those looking to practice their surf technique when and whenever they can.

Our system is the only truck on the market allowing the axle to rotate by 360° degrees and with a second set of feathers to pivot by 60°. It can therefore be described as a highly loose and sensitive system which brings a true surfing sensation to the streets.

THE HYBRID SERIES

SPECS

Colors: Ocean & Black

Size: 70mm

Durometer: 78a

DESCRIPTION

The new surfskate 70mm 78a wheels have a sleek softness that smooths out your ride and allows your skate to boost its speed effortlessly. The 70mm wheel is larger in diameter and width, increasing the amount of wheel hitting the road, and allowing the rider to dig deep into laid out carves.
